INDEX OF SUBJECTS AND AUTHORS

Acid fastness of tubercle bacilli, an investigation of the, II, 526

Activation of latent tuberculosis, Influenza as a factor in the, 534

Adrenalin hypersensitiveness in definite and unproved pulmonary tuberculosis, 609

Air passages, The upper, as an environment for bacterial growth, 247

Albumin reaction in sputum, Studies on the, 889

Allergic and immune reactions to tuberculous reinfection in guinea pigs, A description of graphic records of the local. Studies on immunity to tuberculosis, 551

AMBERSON, J. BURNS, JR., AND PETERS, ANDREW, JR. Influenza and tuberculosis. A supplementary report and critical review, 71

——, ——. ——, ——, —— WATERS, BERTRAM H. The classification of pulmonary tuberculosis as modified by stereoscopic roentgenograms, 424

ANDERSEN, HANS, AND OPIE, EUGENE L. First infection with tuberculosis by way of the lungs, 629

Anomalous position of the colon reveale dduring routine chest examination, An, 280

Antibodies, complement-fixing, concerning precipitins and, Serological studies on tuberculosis. Third contribution, 322

Antituberculosis agencies, The coördination of, 933

Apical collapse in therapeutic pneumothorax, 241

Apicolysis, Extrapleural thoracoplasty and a modification of the operation of, utilizing muscle flaps for compression of the lung, 828

ARCHIBALD, EDWARD. Extrapleural thoracoplasty and a modification of the operation of apicolysis, utilizing muscle flaps for compression of the lung, 828

ARMSTRONG, D. B. Four years of the Framingham demonstration, 908

Army, The elimination of tuberculosis from the, 398

Artificial heliotherapy in pulmonary tuberculosis, 530

—— pneumothorax complicated by hydropneumothorax and pleurisy with effusion in the untreated side, A case of, 649

—— ——, Pleural infection complicating, treated with gentian violet. A preliminary report, 875

—— ——, Spontaneous pneumothorax following, 477

—— ——, The effect of, on pulmonary tuberculosis in the rabbit, 592

—— ——, The International Association of, 626

—— ——, The pulmonary distribution of finely divided suspensions, injected intravenously into rabbits after the production of, 769

Association of Artificial Pneumothorax, The International, 626

Atelectasis as a source of confusion in physical examination of the chest, Pulmonary, 811

Bacillus carrier state, The mechanism of the, with special reference to the Friedländer bacillus, 847

Bacterial growth, The upper air passages as an environment for, 247

BALDWIN, E. R. Book review: A study in the epidemiology of tuberculosis, with special reference to tuberculosis of the tropics and the negro race, by George E. Bushnell, 806

BIESENTHAL, MAX. The use of sodium gynocardate "A" in pulmonary tuberculosis, 84

BIESENTHAL, MAX. The use of sodium morrhuate in pulmonary tuberculosis, 781

BLACK, LOUISA T., AND MOORE, MARY. A roentgenological study of influenza with recovery in an advanced case of pulmonary tuberculosis, 654

——, —— ——, —— SWEEZEY, SAMUEL. An anomalous position of the colon revealed during routine chest examination, 280

Bleeding, The effect of, upon tuberculosis in the guinea pig, 276

BLOOMFIELD, ARTHUR L. The mechanism of the bacillus carrier state with special reference to the Friedländer bacillus, 847

——, —— ——. The upper air passages as an environment for bacterial growth, 247

BOAS, ERNST P. Functional cardiovascular disturbances in tuberculosis, 455

BOISLINIERE, LOUIS C. Influenza as a factor in the activation of latent tuberculosis, 534

Book review: A study in the epidemiology of tuberculosis, with special reference to tuberculosis of the tropics and of the negro race, by George E. Bushnell, 806

BREED, DWIGHT E. A recent study of the indigent migratory consumptive problem, 866

BROWN, LAWRASON. On personal experience and the value of a medical society to its members, 481

——, ——, AND HEISE, FRED H. Adrenalin hypersensitiveness in definite and unproved pulmonary tuberculosis, 609

——, ——, —— ——, —— ——. Twenty-four years' experience with the subcutaneous tuberculin test, 254

——, ——, HEISE, FRED H., AND SAMPSON, H. L. The classification of pulmonary tuberculosis based upon symptoms and physical and X-ray findings, 417

——, ——, SAMPSON, HOMER L., AND HEISE, F. H. The occurrence of intestinal tuberculosis in patients with pulmonary tuberculosis at the Trudeau Sanatorium, 451

BRUNS, EARL H. Report on the tuberculosis situation in Germany, 370

BURDICK, WARD, AND GAUSS, HARRY. Studies on the albumin reaction in sputum, 889

Campaign, tuberculosis, The present status and future prospects of the. Presidential address, 311

CANNON, WILLIAM T. A classification to facilitate the selection of patients for work in a tuberculosis sanatorium, 112

Cardiovascular disturbances in tuberculosis, Functional, 455

CARTER, H. G. Tuberculosis among the Negroes, 676

Chest examination, An anomalous position of the colon revealed during routine, 280

——, physical examination of the, Pulmonary atelectasis as a source of confusion in, 811

——, X-ray examinations of the, The relation of sound and light to the interpretation of, 340

CHURCHMAN, JOHN W. Early vertebral tuberculosis with clinical picture suggesting renal calculus, 288

Cinnamate, sodium, in tuberculosis, Studies on the inhibitory action of, 464

Circulatory changes, Pulmonary findings due to, 620

Classification of pulmonary tuberculosis as modified by stereoscopic roentgenograms, The, 424

—— —— —— —— based upon symptoms and physical and X-ray findings, The, 417

Classification to facilitate the selection of patients for work in a tuberculosis sanatorium, A, 112

Climate, 798

——, The influence of, as distinguished from fresh air in the treatment of pulmonary tuberculosis and its complications, 300

Clinical pulmonary tuberculosis, The relationship of influenza to. Deductions from the epidemic of 1918–1919, 262

Clinics, tuberculosis, of New York City, The 39

Colon, An anomalous position of the, revealed during routine chest examination, 280

Commission for the prevention of tuberculosis in France, The work of the, in the department of Eure-et-Loir, 347
Complement-fixing antibodies, concerning precipitins and. Serological studies on tuberculosis. Third contribution, 322
Compression of the lung, Extrapleural thoracoplasty and a modification of the operation of apicolysis, utilizing muscle flaps for, 828
Constitutional factor in the etiology of tuberculosis, The relative influence of the, 688
Consumptive problem, A recent study of the indigent migratory, 866
——, The surgeon and the, 541
COOKE, J. V., AND HEMPELMANN, T. C. Masked juvenile tuberculosis, 660
Coördination of antituberculosis agencies, The, 933
CORPER, H. J. The effect of bleeding upon tuberculosis in the guinea pig, 276
——, —— ——, AND GAUSS, H. The effect of heat on experimental tuberculosis, 269
——, —— ——, —— RENSCH, O. B. An attempt to produce experimental tuberculous pleural effusions and empyemas in rabbits, 756
——, —— ——, —— ——, —— ——. The effect of prolonged pneumothorax upon tuberculosis of the lungs of rabbits, following the intravenous injection of tubercle bacilli, 763
——, —— ——. —— ——, —— ——. The pulmonary distribution of finely divided suspensions injected intravenously into rabbits after the production of artificial pneumothorax, 769
——, —— ——, GAUSS, H., AND GEKLER, W. A. Studies on the inhibitory action of sodium cinnamate in tuberculosis, 464
——, —— ——, SIMON, SALING, AND RENSCH, O. B. The effect of artificial pneumothorax on pulmonary tuberculosis in the rabbit, 592

Definite and unproved pulmonary tuberculosis, Adrenalin hypersensitiveness in, 609
Diagnosis, differential, of pulmonary tuberculosis, Some problems in the, 502
—— of pulmonary tuberculosis, Points in the. A synopsis, 512
Differential diagnosis of pulmonary tuberculosis, Some problems in the, 502
DOBBIE, W. J. The prevention of tuberculosis. What we should teach to-day, 23
DUBOFF, W. S. Tuberculous meningitis as a complication of pulmonary tuberculosis, 784
Dusts, Studies on the relation of mineral, to tuberculosis. I. The relatively early lesions in experimental pneumokoniosis produced by granite inhalation and their influence on pulmonary tuberculosis, 734

Editorial. A proposed sanatorium university, 66
——. Again influenza and tuberculosis: a letter from Doctor Fishberg, 941
——. Influenza and pulmonary tuberculosis: a criticism of Doctor Fishberg's views, 132
——. New tuberculosis association, New York City, 69
——. The place of the sanatorium in the study of tuberculosis, 243
——. Tuberculosis problems, 67
Education, sanitary, An experiment in, 32
Elimination of tuberculosis from the army, The, 398
ELLIOTT, J. H. Pregnancy and tuberculosis, 792
Empyemas in rabbits, An attempt to produce experimental tuberculous pleural effusions and, 756
Environmental factors in tuberculosis, 713
Etiology of tuberculosis, The relative influence of the constitutional factor in the, 688
Eure-et-Loir, The work of the commission for the prevention of tuberculosis in France in the department of, 347
EVANS, GEORGE H. The tuberculosis problem in San Francisco, 12
Examinations of the chest, X-ray, The relation of sound and light to the interpretation of, 340

Experimental lesions of the lungs produced by the inhalation of fluids from the nose and throat, 683
—— pneumokoniosis, The relatively early lesions in, produced by granite inhalation and their influence on pulmonary tuberculosis. Studies on the relation of mineral dusts to tuberculosis. I, 734
—— study of the action of ultraviolet light on the intradermic tuberculin reaction, An, 100
—— tuberculosis, Hypernephrectomy and, 605
—— ——, The effect of heat on, 269
—— tuberculous pleural effusions and empyemas in rabbits, An attempt to produce, 756
Extrapleural thoracoplasty and a modification of the operation of apicolysis, utilizing muscle flaps for compression of the lung, 828

FISHBERG, MAURICE. A case of artificial pneumothorax complicated by hydropneumothorax and pleurisy with effusion in the untreated side, 649
FLINN, JOHN W. The influence of climate as distinguished from fresh air in the treatment of pulmonary tuberculosis and its complications, 300
Four years of the Framingham demonstration, 908
Framingham demonstration, Four years of the, 908
France, The work of the commission for the prevention of tuberculosis in, in the department of Eure-et-Loir, 347
Fresh air, The influence of climate as distinguished from, in the treatment of pulmonary tuberculosis and its complications, 300
Friedländer bacillus, The mechanism of the bacillus carrier state with special reference to the, 847
Functional cardiovascular disturbances in tuberculosis, 455

GAMMONS, HERBERT F. Apical collapse in therapeutic pneumothorax, 241
GARDNER, LEROY U. Studies on the relation of mineral dusts to tuberculosis. I. The relatively early lesions in experimental pneumokoniosis produced by granite inhalation and their influence on pulmonary tuberculosis, 734
GAUSS, HARRY, AND BURDICK, WARD. Studies on the albumin reaction in sputum, 889
——, H., AND CORPER, H. J. The effect of heat on experimental tuberculosis, 269
——, ——, GEKLER, W. A., AND CORPER, H. J. Studies on the inhibitory action of sodium cinnamate in tuberculosis 464
GEKLER, W. A., CORPER, H. J., AND GAUSS, H. Studies on the inhibitory action of sodium cinnamate in tuberculosis, 464
Gentian violet, Pleural infection complicating artificial pneumothorax treated with. A preliminary report, 875
Germany, Report on the tuberculosis situation in, 370
GILBERT, G. B., HARTWELL, J. B., RYDER, C. T., AND WEBB, G. B. Hypernephrectomy and experimental tuberculosis, 605
Goetsch test, A preliminary report of a study of the, 616
Gorgas, Major General William C., M. C., U. S. A., 729
Governmental hospital facilities for discharged tuberculous soldiers, 205
Granite inhalation, The relatively early lesions in experimental pneumokoniosis produced by, and their influence on pulmonary tuberculosis. Studies on the relation of mineral dusts to tuberculosis, I, 734
GRAY, ETHAN A. The surgeon and the consumptive, 541
Guinea pig, tubercle in the lymph nodes of the, Some factors that influence the development of. Studies on tuberculous infection. VII, 193
Guinea pig, Tuberculosis in the, after subcutaneous infection, with particular reference to the tracheo-bronchial lymph nodes. Studies on tuberculous infection. VI, 135

Guinea pig, Tuberculosis in the, The effect of bleeding upon, 276
—— pigs, The results of virulent reinfection into tuberculin-reacting areas of tuberculous. Studies on immunity to tuberculosis, 563
—— ——, tuberculous reinfection in, A description of the local allergic and immune reactions to. Studies on immunity to tuberculosis, 551

Haemorrhage, Vincent's spirochaete and, in pulmonary tuberculosis, 201
HARTWELL, J. B., RYDER, C. T., WEBB, G. B., AND GILBERT, G. B. Hypernephrectomy and experimental tuberculosis, 605
